Programme for the Eradication of Myna Birds.

Cabinet has approved the launching of the Programme for the Eradication of Myna Birds in Samoa which will be instigated by the Ministry of Natural Resources and Environment.

The Programme is an attempt to help counter the impact myna birds have on the native bird population, people's livelihoods and agriculture.

Activities that will be instigated under this Programme include : media workshops, bonus schemes as well as introduction of long-term methods to help control the growing population of myna birds in the country
